

To Whom It May Concern:

PLEASE do not weaken the existing Telephone Privacy laws. In Indiana we had the good fortune to sign up for a "Do Not Call" and have enjoyed family meals ever since. In the past, it was not unusual to get 2 or 3 solicitation calls every evening. While caller ID could not prevent us from answering unwanted calls, it's also disruptive to run to the phone every time it rings to see who it is. As our parents grow older, we can't risk not checking. Weakening these laws has a direct impact on our everyday lives, and something that our legislators have direct control over – Do you really want to be the one who prevents me from spending quality time with my family?

Our time is our time, and solicitors have not right to infringe on our peace. If I want to solicit a product, I will do so on my own time and don't need or want the interruptions. I have an MBA, work in corporate America, this is not the best use of their resources anyway.

Thank you for your consideration.
